PART II: Locally-hired Soviet personnel. Most of these persons were hired outside the boundaries of the USSR. At one time (prior to being hired), most of them were not Soviet citizens. Included in this group are some Chinese, Uighur, Kazakh, and persons of other minor ethnic groups who are believed to be Soviet citizens but who are not USSR-dispatched.

In this report the spelling given first for each name is the transliteration used by this office based in most instances on the spelling of the name in the Russian language. The majority of the names appearing in this report are known to this office from various Russian-language press sources and from reports in which the names have appeared in the Russian language. The spelling of each name appearing in parentheses represents alternate spellings which have been used. The other names in parentheses include aliases and in some cases the spelling of the name as the person himself spells it in English. The names of Chinese personnel are given as they were reported. The query in parentheses gives the most probable Wade-Giles romanization, as the Chinese characters are not known to this office. Names which sound as if they are spelled initially with H, J, E, Tsch, Stch, or Cz (Cs) will be found in the alphabetical list respectively under Kh, Zh, Ye, Ch, Sh and Ts.

Where it is probable or possible that the names given two or more persons are those of the same person, the name is queried in parentheses. Alternate names and coordinates are given for lesser known cities. The abbreviation "fnu" means "full name unknown" and "ara" means "also reported as.")
